

**H**ubert L. Norris bought his personal perforator in September

1988 from

Blackley

Beeth-

res of

Lon-

don. He

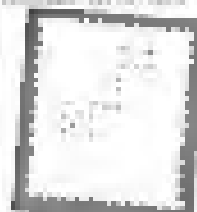

says he

rarely uses

any more but

he will supply copies to members who send him current stamps and return postage.

Norris, who was 72 last August, has been a stamp collector since 1905. He followed his father into the hobby

and when his father died he began sorting several large boxes of stamps, then sorted some perfins, wondered about the patterns mount, and well, the rest is history.

He says the perforator (a diagonal HLN, catalog #H103-57) doesn't work as well as it once did.

While no pills are broken, some of them tend to punch only slightly leaving a couple of blind (maybe dimpled) parts.

However, if you don't have this gem in your collection, you can write Norris (at 1643 Pocomo Drive, Vero Beach, FL 33586) and he'll perform one of your stamps for you.
